**Trademark Industries Inc. – Lunch for our Heroes!**

**Markham, ON:**

The second wave of Covid-19 has been increasingly tough for the world. Rippled by fatigue from the pandemic the true heroes are our frontline workers, who have stepped up and continued to fight this deadly disease every waking moment.

To show our gratitude for the hard work and dedication to our partners and heroes, Trademark graciously donated lunch to the hardworking Nurses and Doctors at Women's College Hospital.

Vice President, Mr. Shlomo Bohbot, said "Donating lunch to Women's College Hospital is just a small token for the heroes who have been working around the clock and taking time away from their families to help and support the community in these trying times. This was our way to show our appreciation for everything they do."
