Trademark Industries Inc. Donates to Support British Columbia Flooding Relief Efforts

Markham, ON

In response to the extreme weather and resulting floods in southern British Columbia, the province has declared a state of emergency. Residents have been displaced from their homes to escape the waters while transportations routes have been disrupted causing fears of a food shortage.

In an effort to help those affected, Trademark Industries Inc. has donated funds in support of the emergency response support, rebuilding and recovery process, and search and rescue efforts.

Mr. Shlomo Bohbot, Vice President of Trademark Industries Inc. said, “We are keeping everyone impacted by this natural disaster in our prayers. We are deeply grateful to the emergency response teams for their incredible support.”

Trademark Industries Inc. encourages other corporations and their employees to contribute to this urgent need in support of our fellow Canadians in British Columbia.
